— WINE ATELIER SHAPAT —

Winery of the Future

Wine, like food, is experienced by all the senses, and Wine Atelier Shapat strives to enchant them all, with unique winery and an exceptional restaurant

In one of the most beautiful parts of Serbia, on the slopes of Mount Fruška Gora near Stari Slankamen, hidden among vineyards, Wine Atelier Shapat is located – a modern winery with a tasting room, top class restaurant and luxury apartments. Here they have been combined to form a single experience, as the realisation of the dream of wine and food lovers, hedonists and those who truly respect nature and art.

Wine Atelier Shapat is a young winery with fresh and powerful ideas, defined in the clear vision, experience and wisdom of the founders, who built the foundations and are now living the vision. Their mission lies in the production of excellent wines from their own

vineyards, utilising exceptional Italian knowledge and local tradition, as well as special service and nurturing nature and art.

As the winery's owners believe, with the combination of tradition and the art of old masters and crafts, master equipment, as well as the vast potential of our region, they can produce the best. Atelier Shapat wine!

"Shapat" is a place that needs to be enjoyed, a place to gather with family members and friends, meet business associates, but primarily share with good people

The very first purposely limited harvest came in September 2012. Then, one year later, the first big harvest marked the beginning of all creation. From October 2013 until today, Wine Atelier Shapat has offered wine lovers five kinds - Our first wine made from 100% Merlot, Chardonnay, Sauvignon Blanc, Rosé and the red blend Pi, while a new red wine is expected this autumn. With great anticipation, they wait for each new encounter. Then, they share the pleasure with friends and partners.

Wine, like food, is experienced by all the senses, and they strive to enchant them all! The exceptional restaurant offer is inspired by surrounding vineyards, the silent flow of the Danube and the finest products, which are turned into the most delicious dishes by the chefs.

This tranquil location, hidden and quiet, is the ideal venue for weddings, corporate meetings and various family and business gatherings. "Shapat" is a place that needs to be enjoyed, a place to gather with family members and friends, meet business associates, but primarily share with good people. It is a place where you come to feel and enjoy the nicer side of life. Everything is supported by the owners' overwhelming desire to share this piece of paradise with others, hence the effort to establish a special club of Wine Atelier Shapat lovers, with membership which will make each member feel very privileged.
